MIRROR BEATS CLIVE

The Mirror ball team won another victory last Saturday afternoon when they stacked up against the Clive nine, on their own grounds. The game was a see-saw all the way through and at the beginning of the eight innings the score was a tie, 3 all. Mirror added a run in their half and managed to shut Clive out for the balance of the game, score 9 to 8. The Mirror line-up: R. Simpson, p.; Iverson, c.; Cairns, 1st; Slinger, 2nd; Suggett, 3rd.; Merkle, s.; Ray Simpson, rf.; McCormack, cf.; Thomas, lf. "Dad" Pringle umpired the game with the help of a Clive representative.

GOOD PROGRAM FOR REGATTA AUG. 15

The sports committee for the regatta on Friday afternoon, August 16th, on Buffalo Lake are preparing a splendid program of events. Favored with

King's weather the affair of the Mirror Boat Club ought to be a pronounced success. Although it is three weeks yet before the water sports are pulled off, those in charge are taking time by the fore lock so that when the day comes round there will be no hitches. The committee on collections have been successful and merchants and private citizens are responding to the request of the Boat Club for support. The sports of the day will be followed by a big dance in the evening. Keep the date in mind and watch for programmes.

INVITATION

The officers and members of Ionia Lodge, No. 45, A. F. & A. M., will meet in the Masonic hall, Alx., at 3 p. m., sharp, on Sunday, July 27th for Divine Service. All brothers and friends of the order are cordially invited to attend.

H. G. FINCH, Secretary.

The Bank of Commerce is receiving a coat of white paint this week. Painter Clarke is doing the work.

R. Johnstone, who has been book-keeper in the local branch of the Bank of Commerce has been promoted to the teller's cage, owing to W. H. Rand being transferred to Edmonton. F. A. Day, of Inisfail, Alta., arrived on Tuesday and will fill Mr. Johnstone's position.

We regret to state that Mrs. Geo. Robinson has been very ill for the past week, but trust she will soon recover.

Appeals against the Village Assessment will be considered by the Village Council on Monday, August 4th. There are very few appeals registered so far.

There will not be any service in the Mirror Methodist Church next Sunday evening, Rev. Irwin the pastor being absent. He will spend a week or two in Edmonton, attending the Inter-Denominational Summer School.

Mr. and Mrs. A. T. Kincaid, of Farmer's City, Ill., are visiting with Mr. and Mrs. K. B. Iverson, and will remain for a couple of months. Mrs. Iverson is their daughter.

Frank Tulloch's grading outfit will return tonight (Friday) after several months work on the G. T. P. south of here. Grading on the streets of Mirror will commence on Monday next, Carroll avenue south, being the first section of work to be started.

A BENEFIT TO STOCK RAISERS

In an effort to encourage the packing industry of the west and to centralize the business in Calgary the municipality of Calgary will probably purchase 60 acres of land adjoining the city limits and exploit a comprehensive scheme looking to the development of the meat packing industry.

The city has taken an option on the land at \$300,000. The idea originated with President Theodore of the United Farmers of Alberta, and has been taken up with enthusiasm by the city council and with the officials of the three railroads running into Calgary.

CUP DONATED FOR TWO-MAN SHOOT

Will Be Competed For At Mirror--Winners Champions of Western Canada

An elegant trophy has been received by the Mirror Gun Club from S. T. St. John, of the Transcontinental Townsite Co., Winnipeg, which will be known as the "St. John's Cup" and is emblematic of the two-man team championship of Western Canada. The cup is now on exhibition in Duttman & Johnson's hardware store, and it is being favorably commented on by those who have seen it.

The cup is the property of the Mirror Gun Club and must be shot for at Mirror every year during a regular tournament, by two men who are bona fide members of any organized club in Western Canada, west of the Great Lakes. Contestants must shoot at not less than fifty birds per team. Besides holding the cup for one year the winners each receive a medal. The medals become the property of the winners but the cup must be returned to the Mirror Gun Club on or before the date of competition in any year. The shoot will be governed by the Interstate Association Rules as revised in 1909.

There are now several cups up for competition in the Province of Alberta, but none, so far cover a two-man team shoot. Red Deer has the championship cup for doubles; Calgary, the five-man shoot; and Edmonton the ten-man championship. The presenting of the cup to the Mirror Club by Mr. St. John, under the above conditions ensures the holding of a tournament at Mirror every year, and it is certain that the competition will draw some of the crack shots from near and far.

We would like to see the "St. John's Cup" remain in Mirror for the first year at any rate, and trust two members of the local gun club will be successful in gaining possibiles.

DIED SUDDENLY

D. McGillvray, a laborer, employed by the G. T. P. died suddenly in a bunk car at Grainger, Alta., last Saturday. He was apparently ill the day previous but said nothing about it, and the next morning was found dead on the floor. The coroner viewed the body and gave the cause of death as tubercular hemorrhage. The mounted police are trying to locate the deceased's parents, who are supposed to live in Calgary. He had only been working one day.

PRIZE LIST NOW OUT

The prize list for the Edmonton Exhibition, August 11 to 16th, is now out. \$50,000.00 is provided in purses and prizes, an amount largely in excess of last year. Perhaps the most notable increases are for Cattle and Swine. This year \$8,400 is given for cattle, the amount last year being \$5,550. The largest increases are in the Dairy breeds, which are this year placed on the same basis as the Beef breeds. For Swine, \$2,850 is being given this year last year the amount was \$1,410. This year Hampshire have been added, while the Duroc

Jersey, Chester Whites and Poland Chinas have been placed on the same basis as the Yorkshires, Berks-shires and Tamworths. One of the special features of the Horse department is the \$200 in prizes given for teams the property of a man engaged exclusively in farming, to be driven by the owner or owner's son, first prize \$80, second prize \$60, third \$40, and fourth \$20, the prizes being donated by S. H. Smith, of Edmonton, and the class being restricted to grade horses. In every department in the Show liberal increases have been made. Entries close July 28th.

GOOD WORK TO GO ON

Although the Central Alberta Development League was virtually disbanded as an organization when the city of Edmonton withdrew its annual grant, the work of the League will be carried on through the medium of the Industrial Commissioner's department in Edmonton. The usual exhibits will be shown at the Toronto Exhibition and at fairs in the States and every effort will be made to keep Central Alberta before the eyes of the people of other parts.

The Edmonton Industrial Commissioner, George M. Hall, has taken over the literature and exhibit material of the League and J. L. Porto, the efficient exhibit manager of the League, has been engaged to continue the work he has done so well for some years. Offer has been made to distribute literature for all of the towns in Central Alberta at the fairs where Mr. Porto has a booth.

Another activity taken up by this department of the Edmonton Industrial Commissioner's work, is the organization of a farm labor bureau. Edmonton is the natural center to which the incoming men and women gather. Through the work of the farm labor bureau, men who wish to get work on farms will be put in touch with farmers who need help and requests will be received from farmers to be furnished to farm help. There will be no charge either to employers or employed and both are asked to communicate with George M. Hall, Industrial Commissioner, Edmonton.

Mr. and Mrs. Large and family, of Killam, Alta., are camping at Mirror Beach.

USE OF RED CROSS CONTRARY TO LAW

A fact not generally known in connection with the use of the well known device of the Red Cross is that under the Geneva Convention Act passed in 1911 by the Imperial parliament it is unlawful for any person to use for the purpose of trade or business or for any purpose whatever, without the authority of the militia council of Canada, the heraldic emblem of the Red Cross on the white ground formed by reversing the federal colors of Switzerland or the words "Red Cross" or "Geneva Cross," and that under the said act any person contravening the above provisions is liable to a fine and forfeiture of any goods upon or in connection with which the emblem words are used.

The Red Cross may be used only by field ambulance corps in connection with the militia.

GUN CLUB NEWS

The regular weekly shoot of the Mirror Gun Club was held last night (Thursday), and the following is the score to date:

Player's name	Primer score	Thurs. score	No. of birds	Total birds	Percentage
E. Estell	85	83	125	108	86.4
J. Cairns	43	40	50	43	86.0
F. Allen	44	32	100	78	78.0
Ray Simpson	37	30	37	740	74.0
Carl McCormack	34	20	75	54	72.0
R. Hopkins	31	19	75	50	66.6
H. Mitchell	32	20	32	60	60.0
Owen Cook	16	25	16	60	60.0
Geo. Robinson	20	20	20	50	50.0
J. Duttman	28	13	100	41	41.0
T. R. McCorkell	7	13	50	20	40.0
J. Johnson	8	7	50	15	30.0
Chas. Dunst	7	7	50	7	14.0

— Did not shoot.

W. Beckman, of the Dominion Cartridge Co., was a visitor of the Mirror Gun Club on Thursday evening and participated in the regular weekly shoot. Out of 87 birds shot at he broke 73.

At a meeting held at the conclusion of the shoot it was decided to hold the tournament for the St. John's Championship Cup at 8.30 o'clock, on Friday morning, August 15th. Geo. Robinson, Frank Allen, H. Mitchell and E. E. Estell were appointed a committee to make the arrangements for the shoot. A box social and dance will be given on Friday evening, August 16th, and proceeds will go towards defraying expenses.

M. Mecklenburg, A. M., the only university graduate Sight Specialist in Alberta, 315 Jasper E., Phone 5225, Edmonton.

The Mirror Hardware Co., received a large shipment of hardware this week.

Quality Talks

Make Quality your first Consideration, not Quantity—not how much but how good. Decide your purchases not on the inches or the ounces basis—Apply the acid test of Quality.

Do not consider price only, do not consider quality only. Buying wisely you can secure the finest quality at the lowest price consistent with that quality. But make Quality your first consideration

QUALITY GOODS

E. D. S. Canned Goods, there are none better. Thomas Bros., Brooms, and many other lines that we carry. Jacob & Co., Biscuits Our prices are as low as first in their price for we can make them quality Quality Considered

ALL THE CONVENIENCE AND COMFORT OF A

Complete Bathroom

How much would you give for a new warm bath where there is a generous supply of water—where one can stretch out and really enjoy it—where one comes out feeling refreshed and like a new person? Would the old method of trying to wash oneself in a wash-tub or bowl commence to compare in satisfaction with such a bath? How invigorating and refreshing is the right kind of a bath. A clean body is conducive to health and happiness, a keen mind and active brain. You don't need an expensively fitted up bathroom to enjoy a good bath. Get a

Folding Bath Tub

THEY COST ONLY \$12.50

They are guaranteed for 5 years. They require small space when not in use. They take the place of the Costly Bathroom.

LEVEL COLT'S FEETProperly Done, It Cures Wrong Ten-
dencies and Prevents Resul-
tant Injuries

The feet of foals frequently need leveling to prevent an abnormal develop-
ment of the legs as a result of un-
equal wear of the hoofs. Many foals
stand badly at first, and if they are
slow in gaining a correct position of
the legs the hoofs may become un-
even to a large part by keeping the
standing position or a straight form
of action.

Leveling the feet acts both as pre-
vention and cure. It prevents a break-
age, or other cause of rapid wearing
away of any part of the hoof from
throwing the weight on the wrong
part of the foot. If the foot is
born with a natural tendency to stand
wrong, as with the feet too wide apart
or too close together, or pigeon-toed,
such a tendency may be gradually cor-
rected by a large part by keeping the
feet level. A colt that stands pigeon-
toed, for example, wears off the out-
side wall of the hoof faster than the
inside, and the more that condition de-
velops the worse the tendency to
stand wrong becomes. By rasping off
the outside wall to correspond with the
even slightly to exceed the wear of the
other side, the feet will be thrown
more nearly into line as it strikes the
ground. While the leg bones and
joints are growing they are suscep-
tible to the persistent pressure from
one angle or another and grow into a
correct position or away from it
according to the condition of the feet.

A level foot induces the colt to as-
sume a correct position of the legs.
As an example of the marked effect
of the pressure on the joints from
shortening one wall or the other of
the hoof, work horses with lameness
and symptoms of spavins have fre-
quently been made to go sound simply
by taking half an inch off the inner
wall of the hoof, thus throwing the
conclusion on to the outside of the
hoof joint. If colt's hoofs are kept
fairly sharp at the toes, with the inner
and outer walls of equal length, the
feet will develop an nearly a correct
shape as it can be induced to take and
the flaps as well will be safe-guarded
against deformity.

FIGHTING WEEDSPlough as Early as Possible After the
Crop is Removed

Summer fallowing is not necessary
for the eradication of noxious weeds
such as mustard, Canada thistle,
curled dock and so forth. By plowing
as early as possible after the crop is
removed and cultivating frequently
until the ground freezes, it is quite
possible to free land from the weeds
mentioned. The farm of one of our
neighbors was badly infested with
mustard, says J. R. Verlaque, of Car-
leton Place, Ontario. The former crop
owner, who had merely rented the farm,
had failed to keep this pest in control,
and it had practically driven him off
the farm. When his successor and
present owner (an Englishman by the
way) took the farm he was all very
interested in knowing how he would
make out in the struggle for existence
with the weeds.

The first grain crop could not be
sown for mustard. This crop was not
allowed to ripen, but was cut when
green, and with careful curing, made
very fair winter feed. The land was
plowed immediately, and, in the course
of a week or so, was green again with
a fine growth of mustard, thistle and
many other weeds. When these were
well started, he disced the land thor-
oughly and let stand for a couple of
weeks. The next growth of weeds
was plowed under. He followed this
up with alternate disking and plowing
as long as the weeds continued to
grow. By following this method com-
bined with a rotation which contained
a large amount of corn and roots, he
has his farm practically clear of
weeds.

Nor was the freeing of the farm
from weeds the only benefit derived
from this system of cultivation. The
land was put in splendid shape for
next year's crop. The large amount
of cultivation and sowing made
available a large supply of plant food.
The large amount of vegetable mat-
ter in the form of weeds turned un-
der, greatly increased the supply of
humus in the soil with all its at-
tendant benefits. Farmers who are
caring on what seems like a hopeless
struggle with weeds, would do well to
follow the example of our English
neighbor and do more fall cultivation
combined with a large acreage of food
crops.

THE MANURE HEAPNever Allow Yourself to be Tempted
to Dispose of It

So far as manure is concerned you
should make it your business to keep
your small holding self-supporting so
far as possible. In these days of in-
creasing traction dump is becoming in-
creasingly scarce, and though artifi-
cially manured, it is not the same. There
will always be a demand for the in-
valuable farmyard refuse, which contains
the nutritious properties for soil in
such well-balanced quantities.

Still, though manure is such an im-
portant commodity, there is no need for
it to be hoarded, and your manure
will be well made up at some conven-
ient point well away from the house. Here
straw from the stable, pigsties, cow-
houses and yards may be stored, and
it should be stacked carefully so that it
may "heat" and decompose.
Lawson on the whole, preferably in
frosty weather—the stuff may be
carried on to the land and used, econ-
omically yet individually; the more ro-
ten it is the better. Never be tempted
to dispose of manure. It will probably
be against the conditions of your ten-
ancy, but whether or not, it is bad
farming to let a load go.

Mirror.**SOME POULTRY HINTS**

Because some people advocate well ventilated poultry houses, do not allow the air to enter in such a way as to cause a draft. Have all the openings in the south side of the house and covered with cloth on days when wind of storm would blow in.

A well-known poultry man says he is covered with cloth does not make the house any colder at night than the same space covered by glass, and the cloth gives good ventilation.

An unassuming piece of cold air striking the fowls at night while on the roosts is responsible for many a case of cold and croup.

Milk given to fowls is well adapted in egg production. It may be used for drinking purposes, or used in place of water to mix with the ashes.

ALBERTA FAIRS

The following is the list of the local fairs which will be held in the province this summer and fall. The list is arranged by the Alberta Fairs association, and as far as possible the dates are arranged so that dates of nearby shows will not dash and will yet be convenient for those wishing to get to both shows. Official judges are supplied by the provincial department of agriculture.

R. T. McCORKELL Manager**TESTS OF COURAGE**

The custom of courage tests at initiations originated away back in the Dark Ages when the average secret society had for its main purpose the extinction of some particular individual, or set of individuals. It put the personal courage of every candidate to the test. It was necessary that he be courageous, that he be capable of withstanding everything from the thumb-screw to the gallows. The revelation of a society's secrets a few hundred years ago would have meant death to every member of the organization. Brave men were essential. "Riding the goat" is nothing more or less than a test of courage. To the spectators, it is funny; to the candidate, serious. The spectators know the goat isn't apt to create any wide havoc; the candidate does not. He has only external evidence by which to judge. The goat may stumble sometimes—in fact, it does. Only in the more ritualistic orders does "goat-riding" in all its various forms still retain a certain solemnity of purpose. The idea is to test the candidate's confidence in his fellow-members. He is assured, first of all that no harm will come to him. Then he is plunged into the midst of seeming danger. He is allowed to touch a huge steel shield, with sharp spikes projecting from it at a hundred points. The shield is laid on the floor. The candidate is led to a platform six feet above it, and told to jump down—on the shield. He does. The shield proves to be rubber. All is well. The candidate has proved his faith in his fellows. Again—the candidate is bound hand and foot. A hot iron is brandished in front of him. He is informed that it is to be stamped on his back. He feels it. He smells burning flesh. He protests, perhaps—and is shown a chunk of ice, together with a piece of burned beetroot.

DROP INDIAN NAMES

English and Scotch Cognomens Used

By Manitoba Red Men.
Mr. J. K. L. Ross, who went on a hunting expedition into the wilds some 150 miles north of Winnipeg, Manitoba, says that the Indians of the Fisher River reserve are those who were removed north from Selkirk some twelve or thirteen years ago, and they appear to be doing very well, fishing and farming. Most of them, he thought, they appear to be full-blooded, have English and Scotch names; some of them explaining that they had been adopted into families of Old Country origin.

For instance, Mr. Ross met a man at the Fisher River mission named Andrew Macpherson, who lives in a home, teaches school, and is an Anglican by religious faith. Two others, whose respective names were Robert Ross and Jacob Thomas, appeared to be about as nearly full-blooded as could be expected.

Asiatic Creeds.

Few people realize the growth of Asiatic cults and religions in North America. It is stated on apparently good authority that on this continent there are 15,000 sun worshippers, and an equal number of Buddhists.

Probably ten times as many persons have severed the Oriental paths of their new creed with a veneer of Western Christianity. The number of dabblers in the "mystic" cults of India cannot be guessed.

The Youth of the North.

There is no lack of latent energy in young Canada. It is there and it cries out for scope and activity. What answer shall be given to this instinctive cry of the youth of the north for social activity and normal and healthful sport?—St. John's, Que. News.

One Dollar a Bushel for Oats and Barley

A Farmer living in the district, by keeping careful accounts has found that by feeding to his cattle and selling the latter in prime condition his oats and barley have netted him over a Dollar a Bushel. Mr. Farmer, do you realize that you are in a position to make that Dollar a Bushel in every year? You need not fear a hail storm, nor frost, nor any of the climatic conditions that effect grain, as in nine cases out of ten you can feed the spoiled grain to Stock. We are willing to pay the highest price for stock of all kinds and guarantee you a market all seasons of the year. Feed your grain to Cattle and we will pay you that Dollar a Bushel when it is turned into Beef.

Prizes Given Away

Our Proposition;

We are distributing a Box of Keys, three of which will open as many locks on the following articles in our store and these prizes will be given away absolutely free:

One Ninety-Five Piece Set Of Dinner Dishes
One Double Barreled Shotgun
One Handsome Gasoline Lamp

YOU ARE ENTITLED TO ONE KEY WITH EVERY TWO DOLLAR CASH PURCHASE.

Three of the keys in the box will open three locks on the above articles. The persons who secure these keys win the handsome prizes.

The three locks are sealed and are on display, as are the prizes. You will be pleased to possess them and they cost you absolutely nothing.

This contest is for the purpose of introducing ourselves to those who are not our regular customers and to show our appreciation of those we have had the pleasure of serving.

The only articles that keys will not be given away for are Nails, Wires and Steel Granaries. We will advertise the day that all keys are to be tried in the lock.

The Journal for Job Work

South Buffalo Lake

(From Nemo)

M. Olsen and Miss MacKirdy, Miss Balfour and Messrs. Gardiner and Brooks, of Mirror, visited Lakeside Ranch on the 21st inst. As the day was hot the waters of our beautiful lake were found to be very refreshing. There is an ideal grand beach at the ranch for the bathers' use.

W. Jaack and family, D. Anderson and family, and F. Anderson and family, all united in a picnic to our picturesque little island lying just north of Lake-side ranch, and report a very enjoyable day for all.

R. Pugh supplied the good people of Stettler with a load of "fresh fish" last week.

Your correspondent understands that friends are taking up a subscription for the sufferer in the "auto accident" of recent date.

Earl Estell and W. Graham were visitors at R. Pugh's recently.

Yes, South Buffalo Lake now has an up-to-date, good all around base ball team and from present indications will cut a wide swath next season among the surrounding local teams.

Though only organized they are devoting two nights weekly to practice. At present they have the use of M. O. Sorum's grounds. On the 19th, they met the Lake-view team in a friendly match.

Result first game, 9 to 3 in favor of S. B. Lake "die-hards." Second game resulted in a tie, as darkness prevented a finish. Both twirlers done good work and received good support from their respective teams.

J. H. Sorum acted as umpire and showed himself to be an expert in dodging rocks, bats, etc. C. Pemberton was scorer at a safe distance.

Among other celebrities visiting this locality for their health we have among us a "wrestler," who has held the feather-weight championship under twelve titles. One of our young men for the honor of Alberta and incidentally hoping to learn a new trick or two in the art of wrestling, ventured a friendly grapple with our champion visitor, and to the surprise of onlookers the champion went under twice out of three bouts. Yes, these young men around the lake, with their muscles all worked up on willow grubs and bronchoses sure hug a man like a grizzly bear.

[Ed.—Wonder if the girls are subjected to the same treatment.]

(Too late for last week)

R. E. Estell and a few friends from across the lake took in the celebration at Clive and on return report a genuine good

time, winding up with a dance in the evening at which music was furnished by Mrs. J. Sorum and Messrs. McKirdy. In the ball game the Alix "invincibles" met defeat at the hands of the Clive "unconquerables" to the tune of 7 to 4.

M. O. Sorum has the concrete foundation of his new home finished and the erection of the frame work is in progress with C. E. Pemberton in charge of the work.

Miss Olivia Sorum returned home on the 12th inst. from Clive, having spent an enjoyable week visiting friends in that locality.

Plea For Clean Sport

To Editor of THE MIRROR JOURNAL:

Dear Sir—In your last issue of the 18th inst., I read an "Appeal for Help" from the Mirror Athletic Association. I think that the good people of our town are justly proud of the boys who are playing a first-class brand of ball and would be very sorry to see the sport die out for lack of finances; but, fellows, we'll only supply the where-withal when we see our national game played in a gentlemanly way.

When a heavy hitter slugs the ball out to right field for a two-base hit, we cheer; but when he tries to reach third by cutting a corner around the pitcher's box (when the umpire is not looking) we begin to think that the visiting team will have us marked for a pretty crooked out.

This kind of game, Mr. Editor, does not strike us as sport. If a hockey player, when the referee was not looking, were to slug his opponent over the head with his stick, the crowd would hiss him and the authorities would rule him out of the game.

In a ball game, the players are supposed to circle all the bases, if they fail to, they are not playing a straight game and are leaving the visiting team a chance to form a very questionable opinion of the Mirror nine. The boys can win without resorting to this kind of play, let them keep the game clean and we'll come through with the coin.

Thanking you Mr. Editor for your valuable space.

I remain a "loyal fan."
